ABOUT THE COLLEGE

EASWARI ENGINEERING COLLEGE, a unit of SRM Group of Educational Institutions for higher learning is functioning under "Valliammai Society". The society was founded in the year 1981, for promoting the cause of Quality Education by Dr.T.R.Pachamuthu, an Academician and Educationist. EEC was instituted in the academic year 1996-1997, with the Approval of AICTE, New Delhi. The Institution is affiliated to Anna University, since 2002. College offers 8 Undergraduate and 6 Postgraduate Programmes covering Engineering, Technology and Management. The Institution has a strong Industry Interaction with reputed National and International Organizations. The college has obtained ISO 9001:2015 Certification from TUV South Asia. The college is accredited with 'A' Grade by NAAC.

ABOUT THE DEPARTMENT

The Department of Civil Engineering has been established in the College since the year 2007-2008 with an annual intake of 60 students. The intake was increased to 120 from the academic year 2012-2013. PG Structural Engineering was also started in the year of 2013-14 with the intake of 18 to provide basic and advanced knowledge and skills among Civil Engineering students so as to meet the changing industrial and research needs to become the acknowledged leader in Civil Engineering. With the concurrent acquisition of technical skills in laboratories, inspiration and awakening of the young minds by vibrant teachers, the students are engaged intellectually, in the college. The program is accredited by NBA.

ABOUT THE CONFERENCE

The ICSECE 2019 conference aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Sustainable Environment and Civil Engineering. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Civil Engineering for Sustainable Environment. The main scope of the conference is to propose an exchange medium for different approaches which can contribute to the sustainability of the Civil Engineering sectors like investigations on sustainable materials and structures, intelligent principles in green building design, sustainable solutions in transportation and urban planning
